FIRE BUGS

Legion Men Guarded Town

continued from page 1

the American Legion and the Spanish-American building was turned over to them for quarters. They immediately proceeded to organize and three shifts of soldiers were put on guard. All roads leading to town were placed under surveillance and incoming and outgoing persons questioned.

A petition was circulated and a reward of \$1,000.00 has been offered by the citizens of the town for the arrest and conviction of the party or parties implicated in the dastardly deed.

What the motive can be for the destruction of the town is more than can be figured out. Some are of the opinion that it is some school child trying to destroy the school building and the same one that destroyed the old school building last April, others think it is some man trying to get vengeance on some one, the school theory is dispelled to a certain extent by the destroying of the Roy Trading Co. sheds and the Floersheim ice house, which is quite away from the school, yet the fire of Wednesday night looked much like the destruction of the school was the motive.

The damages so far will amount to several thousands of dollars. The losers are Roy Trading Co. Hay and feed sheds, several tons of hay and damage to main store building; W. G. Johnson 1 ton of broom corn; Floersheim Merc. Co. ice house and ice; Tom McGrath sheds; J. Appel sheds.
